-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of Group II, claims 13-24 in the reply filed on 05/07/2007 is acknowledged.
2. Claims 1-12 and 13-24 have been ordered cancelled by the applicant and should be indicated as such in the listing of claims.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 13-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 13 recites, "a Main-In-The-Loop (MITL) interface." It is not known what is meant or encompassed by this limitation since it is not clearly defined in the specification.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of

the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 13, 17-19 and 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admissions in view of US 6755372 issued to Menzel and in further view of the EDO 3000 series Rugged Laptop and docking station disclosed in the tsiot.com website. Applicant's background admits there is known a mobile platform including an attachment point for a weapon, data management systems and data links. The admission does not disclose a mobile platform including a docking station, a computer carried on the mobile platform or a docking port.

Menzel discloses a computer 34 on board a P-3 Orion (col. 3, ll. 59-61). The computer has a processor 50, user interface 52, database 54 and an operating system. The computer interfaces with a Harpoon Block II missile package 40 via an Mk-82 line. At the time of the invention, one having ordinary skill in the art would have found it obvious to provide the prior art admission with the computer interface 34 of Menzel so that the computer could interface with the weapons system and avoid an expensive upgrade.

The EDO series laptop disclosed in the tsoit.com document discloses the computer, docking station and a mount for vehicles. At the time of the invention, one having

ordinary skill in the art would have found it obvious to provide the EDO computer and its components to the combined device of the admitted prior art and Menzel for the purpose of providing a rugged, versatile and mobile workstation.

8. Claims 14-16 and 20 were rejected under the Examiner's taking of Official Notice and not challenged by the applicant. Therefore, those claims remain rejected as known in the art and obvious in view of the combination of the admitted prior art, Menzel and the EDO laptop computer as discussed above.

### ***Response to Arguments***

9. Applicant's arguments with respect to claims 13-24 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3641

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

11.
